GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

The Ring Suits.

NEW YORK, June 28.—Attorney General Pradt, in a report to Gov. Robinson upon the Ring suits, encloses a report from Peckham and Lord, counsel for the people in the action against Peter B. Sweeney, which says the case against Sweeney differed from that against other members of the prosecuted, in that he was not a member of the board of auditors or an officer charged with any duty in respect to the claims fraudulently paid. Except the evidence showing that there was no testimony to show Sweeney a party to the conspiracy for the audit and payment of these fraudulent claims. He then goes at some length to defend his action in the case, especially regarding the evidence showing that Sweeney's entire property was when the case began not worth over a quarter of a million dollars, which he said was considered impoli- to say, to Townsend's late accu- ulation, but quite a different matter to the Tweed transaction and negotia- tions. Regarding the written statement he says Tweed was examined his testimony would be of substantial value in a criminal action, and the action in which Tweed was defendant in regard to the latter. Mr. Tweed in his written statement made an assertion which rendered his testi- mony entirely valueless. This assertion he declined when examined by the corporation counsel. There was then in my judg- ment a material variance between his deliberate written statement and his verbal statement. I do not see how a fair careful examination, seemed to me a witness in any action, especially in the case where Tweed expected to testify himself, accepted a retainer from Tweed in the case where Tweed expected to testify. One practical suggestion was made by Tweed's counsel, that the old checks should be privately taken up, those names were upon them and offered to them upon payment of Townsend thought many of these would be glad to save themselves the mortification of having the fact made public, having had Tweed's checks, and that others might be made afraid. This was not done with all checks, no matter for what purposes they had been given. Townsend refused to do this and collect the money for himself. He said he would charge only ten per cent. upon the amount collected, and that he could go to the treasury of the State rejected this on account of its lawless- ness and immorality.

Fort Moultrie Monument.

CHARLESTON, June 28.—The monument in honor of the defenders of Fort Moultrie was unveiled to day, the anniversary of the battle. The military display was very fine.

Business Failure.

NEW YORK, June 28.—The *World's* Montreal special says: Henry Dunning, the great ship- builder of Quebec, has failed. Liabilities, $1,000. A large amount due in the states. His assets are large. Depression in ship- building and low freights caused the failure.

Big Beer Keg Steal.

The *Tribune* says it has been known for a long time that systematic thievery of ale and beer kegs and barrels has been going on here. One firm lost 4,000 a one time. The thieves are supposed to be an organized band who alter the barrels refurnished to destroy identi- fication and sell them to less prosperous firms. A quarter of a million dollars was thus purloined in three years. Detectives have recently been put on the track and some startling developments will soon be made.

The Press on the Iowa Platform.

The *Tribune's* editorial says: It is useless for the friends of the president to try to hide from themselves the unwelcome truth dis- closed at Des Moines. The Republican party of Iowa is not pleased with Hayes, and the occasion of his policy has been exceedingly unanimous. A large majority of the dele- gates manifesting their hostility to the ad- ministration, and we might almost say in the most contemptuous manner. The fact that many of the true civil service reformers are losing confidence in the administration cannot be disguised. It will to consider the causes of discontent candidly and to state them frankly. Then perhaps the president will see how to remove them. It will be a pity if between two stools he should fall to the ground.

The *Commercial Advertiser* took similar ground yesterday afternoon, and it is intimated somebody would have to be thrown overboard pretty soon. Collector Arthur will discharge about a hundred on Saturday and a number next week.

Salaries Probably Taken for Salaries.

BOSTON, June 29.—The special commis- sioners appointed for the examination of life insurance companies, appointed by the last legislature, having examined a large part of the assets of the Charter Oak life insurance company, certified to Commissioner Stedman, that there is an actual deficit in the assets of the company of over $2,000,000; also that there are questionable assets amounting to nearly $1,750,000. It is believed, however, that policy holders under present circum- stances ought not to sacrifice their policies.

A Bankrupt.

BOSTON, June 29.—Jos. Hatton, of White- hall, since of the Vermont supreme court, was adjudged a bankrupt; liabilities $100,000 above assets.

List of Victims.

BOSTON, June 29.—The following is a list of persons injured by the steamboat explosion on Lake Keyside day: Alfred Mayburry Plymouth, engineer; Mrs. J. T. Orne, re- covery doubtful; Mrs. George Phillips and two children, and one child very severely injured; Fanny, Brown of Chelsea, a little girl, cannot recover; Miss Fanny Merritt, seriously scalded and burned; John Buck- ley; George A. Brooks, aged six years; Cora Lemon, Rosa Lehan, Willie Davis, Susie Hos- mer, Alice Clarke.

Failure.

NEW YORK, June 29.—W. P. Chapman & Co., silk importers, have failed; liabilities, $1,000,000.

Tilden Defers his Trip.

NEW YORK, June 29.—Ex-Gov. Tilden and Cyrus Field, who had engaged passage to Europe by the *Bothnia*, which sails next Wed- nesday, have decided to defer the passage.

An Official Arrested.

COLUMBIA, S. C., June 29.—L. Cass Car- penter, U. S. internal revenue collector for this district, has been arrested and held in $5,000 bail for examination. The charge is that Carpenter, while editor of the *Union*, ob- tained two state treasury warrants for $55 and $95 respectively, for public printing, which he increased by prefixing the figure 6 in each instance, so as to make the amounts read $655 and $695.

Indicted.

NEW ORLEANS, June 29.—The custom house commission will transmit their report to the secretary of the treasury to-morrow. It is understood they recommend reductions of 25 per cent. in numbers and cost, making an an- nual saving of $600,000 without impairing the efficiency. They will in a supplementary re- port discuss the general subjects submitted to them.

Bloody Fight on the Danube.

NEW YORK, June 29.—A special cable dis- patch states that bloody fighting is going on at Tyrgaz on the Danube. Russian troops are crossing en masse and engaging the Turks, who are making a desperate resistance. The slaughter on both sides has been terrible. The Turkish gunboats are also engaged in the battle.

A Reported Turkish Victory.

Late advices from Turkish sources state that Turkish forces claim a victory in the battle near Delvrin, Tuesday, and that the Russians lost 3,000 men.

A Hayes Resolution Tabled.

CONCORD, N. H., June 29.—In the house a resolution presented last Tuesday endorsing President Hayes and his policy was called up and an effort made to pass it, the measure being strongly favored by several members. Among them Sinclair, who is a Democrat and who originally introduced the resolution. Without coming to vote the matter was laid on the table.

Fire.

CINCINNATI, June 29.—The fire in Myer & Co.'s pyrotechnical store destroyed $6,000 worth of stock; insured $10,000.

The Yale-Harvard Race.

SPRINGFIELD, Mass., June 29.—It is esti- mated that 25,000 persons will witness the race between Yale and Harvard this afternoon. The race will be rowed at half-past 4 o'clock.

The President's Travels.

PROVIDENCE, R. I., June 29.—The president and party remained at the executive mansion last night. This morning the president was escorted by Newport artillery and Providence first guard of infantry to the Music Hall, which was handsomely decorated. Here five hundred children of the public schools were waiting for the president and party. The children sang "My Country, 'tis of Thee," "See the Conquering Hero Comes," "I Waited for the Lord," Mendelsohn's "Fairy Ship," choral hallelujah, and "Sweet Bye and Bye." The singing was exquisite and accurate, in tune and time, and elicited most rapturous demonstrations of applause. Gov. Van Zant then said:

Ladies and gentlemen—Sometimes upon a sum- mer night the stars come out like jewels, and we think they are bright, and the moon rises and we regard her as passing fair, but at sunrise we forget all the rest, and now the sun will rise upon dear Rhode Island, for I have the pleasure of introduc- ing to you one whom we love and honor because he is good and true—Rutherford B. Hayes, president of the United States.

President Hayes said:

My young friends, the superintendent and teach- ers—On behalf of our department I wish to con- gratulate you and return to you our heartiest thanks. We hope; we pray that the day is not far distant when every state of our Union will possess such educational advantages as you enjoy. When that time comes public opinion will be par otic, wise, pure and just, and in this country public opinion is government.

As the President started to leave the hall the children singing "Sweet Bye and Bye," by preconcerted arrangement the young Misses in the front gallery cast continuous showers of roses before and upon him as he passed down the aisle.

Musical Tour.

ST. LOUIS, June 25.—Dr. Charles L. Jerrays, a noted musical critic, has a letter from his cousin, a professor in the university of Mu- nich, stating that Richard Wagner, the com- poser, will make a grand musical tour in the United States, (probably in early spring) and will possibly visit the whole of North and South America.

Boat Race.

BOSTON, June 29.—Regan easily beat Lan- ders in the single scull contest of three miles. Thousands of dollars changed hands. Time, 22 minutes and 50 seconds.

An Old Military Company.

PORTSMOUTH, June 29.—The Portsmouth light artillery, organized in 1776, has accepted the invitation of the mayor of Portsmouth, England, to visit that city and receive its hos- pitalities.

Preparing for a Riot.

BUFFALO, June 29.—The seventy fourth regi- ment of the New York national guard are in quarters pursuant to orders from Adjutant General Townsend to hold themselves in readiness for service during the anticipated riot on the Erie railroad on account of re- duced wages.

The Revenue Law.

CLINTON, Ia., June 29.—The revenue de- partment at Washington instructs collectors here to disregard a recent decision in the DesMoines United States circuit court that when one or more members leave a firm it is not necessary to take out a new special tax stamp. The department rules adverse y to this and will carry the matter to the U. S. su- preme court.

Pooling Freights.

The Cleveland trunk line managers have decided to pool live stock freight and earn- ings from St. Louis and other points along the Mississippi valley on an equitable basis. This is believed to be the beginning of further ami- cable pooling arrangements.

Colored Delegation.

CHARLESTON, June 29.—A delegation of South Carolina negroes are preparing to go to Washington to insist upon the recognit on of their race in the distribution of federal offices in this state. Their grievances are understood to be, not that colored men have been ignored, as that colored recipients of federal offices have been exclusively mulattoes, showing a prejudice against blackmen of whom the Re- publican party in South Carolina is a most entirely composed.

The Tribune Printers Strike.

NEW YORK, June 29.—The *Tribune* has been in negotiation for a day or two with its com- positors for a reduction from 46 cents to 40 cents; the abolition of boys and one or two minor points which brought them in conflict with the typographical union. This after- noon at 5 o'clock the whole force struck with- out notice. New men were instantly called in and by nine o'clock they had forty com- positors at the cases, and the paper comes out in the morning with ten pages, and the fore- man says he can get on hereafter without diffi- culty. The striking printers still have some hope that by the aid of the union they can compel the *Tribune* to accede to their terms. The *Tribune* says, however, it will not take back the strikers under any circumstances.

WASHINGTON CITY.

Want to be Closed to the Hostile.

WASHINGTON, June 29.—A petition was re- ceived at the interior department to-day from the judge and other county officers, and numerous citizens of Knox county, Neb., re- questing that in event of the removal of the Sioux Indians from the Spotted Tail agency to any point on the Missouri river within 300 miles of Knox, they may be located on the Old Ponca agency in the immediate neighbor- hood of the petitioners. The latter say it is a well established fact that settlers near the Sioux reservation are less liable to disturbance than those at a distance, it being characteristic of the Sioux to go far away from their reserves to commit depredations.

The Mississippi Levee.

WASHINGTON, June 29.—By direction of the secretary of war, a board of engineers consis- ting of Col. J. H. Simpson, Maj. C. R. Sutter and Capt. W. H. Beuzand have been ordered to assemble at Vicksburg on the 17th of July, to examine and report upon the most advis- able means of preserving the water front of Vicksburg and the opposite shore.

Army Telegraph Bills.

General orders issued from the war depart- ment announced that no appropriation hav- ing been made for the telegraphing depart- ment or its bureaus for the fiscal year ending June 30th, the officers whose usual duty it has been to pay such accounts to telegraph com- panies, are authorized to issue vouchers to the companies when services are rendered during the next fiscal year; such certificates stating that the account is correct as in other similar cases. Holders shall have no claim against the government unless Congress shall make an appropriation for the payment.

Appointed Gaugers.

Two colored men were to-day appointed gaugers in Kentucky, being the first colored men that have received appointments of this character.

Going to See the War.

Brevet Major General William P. Hazen, in command of the 16th infantry, has been se- lected for the position of military attache to the American legation at Vienna for the pur- pose of witnessing military operations be- tween the Turks and Russians.

Estimating the produce of an acre in oats at 50 bushels, they will contain 450 pounds of flesh-forming food, and 672 pounds of fat- forming food; while three tons of hay off the same acre will carry 480 pounds of flesh-form- ing and 2,790 pounds of fat-forming. Hay is a standard food for cattle.

THE WAR IN THE EAST.

Attack on Seichidisin.

ST. PETERSBURG, June 28.—An official tele- gram, dated June 23, says the Russians at- tacked Seichidisin on the Black Sea, north of Batoum. The Turks, aided by a monitor and an armed population, offered an obstinate re- sistance from the entrenchments and broken ground. The fighting lasted throughout the day, and towards evening the Russians cap- tured a portion of the enemy's position. They lost a lieutenant colonel, sixteen officers wounded, and 400 men killed and wounded.

NOTE.—It is probable the foregoing engage- ments are indentical with the affairs claimed as victories by Dervish Pasha's dispatches, cabled Wednesday night.

Proclamation to the Bulgarians.

BUCHAREST, June 28.—The Czar has issued the following proclamation to the Bulgarians:

My troops have crossed the Danube to day; they enter your territory, where they have already sev- eral times fought for the amelioration of the Chris- tian inhabitants of Turkey. Russia still bears the same love and solicitude towards all Christians in Turkey as when she secured the liberation of Ser- via and Roumania. I have confided to my army the mission of securing the sacred rights of your nationality, which you have acquired by centuries of sufferings and the blood of the martyrs which has soaked your soil. Russia's mission is to build up, not to destroy. She is called by the decrees of Providence to conciliate and pacify all races and denominations in those parts of Bulgaria inhabited by a mixed population. Henceforth Russian arms will protect every Christian from violence. Not vengeance but strict equality will guide our acts.

The proclamation promises also equal pro- tection to Mussulmen, but impartial justice upon known participators in atrocities, and urges the abandonment of intestine dissen- sions, and announces as a fact that as the Russians advance Turkish rule will be re- placed by regular organizations in which the native inhabitants will be summoned to take part under the supreme direction of special authorities, and Bulgarian legions will be formed to serve as the nucleus of a clerical armed force, destined to maintain order and security. The proclamation concludes:

Follow faithfully the instructions of the Russian authorities. Therein lies your strength and securi- ty. With humility, I pray the Lord to give us vic- tory over the enemies of Christianity, and to send down His blessing upon our just cause.

Fight at Zewin.

ZEWIN, June 28.—The Russian attack on the Turkish position here was repulsed, despite the repeated assaults. The Turks had 10,000 men, but their numerical inferiority was bal- anced by their well fortified position. The Russians fought with the greatest bravery.

The Ease of Crossing.

BUCHAREST, June 28.—The Russian officials are as surprised as the general public at the ease with which the crossing of the Danube was effected, and at the slightness of the re- sistance. The Turks seemingly made up their minds that the passage would be attempted at Turna Magurell. The tremendous bombard- ment of Nikopolis also served to divert atten- tion and confirm them in this opinion. The greater portion of the troops now at Turna Magarelli have received orders to march upon Simnitza and cross there.

News from Sistova is that the Turks have completely wasted the country around that place.

Crossing at Simnitza.

SIMNITZA, June 28.—Under the willows and tamariska there were collected last night about 0 o'clock boats and men, and at 11 they began to cross. Both during the crossing and after- wards they suffered seriously from the fire of two batteries and from rifle fire. One gun, standing alone, fired with steadiness and pre- cision and created some damage; but although the men suffered, the boats went and came un il men enough were crossed to hold their own when morning dawned. Dragomiroff's d vision of the eighth corps was the first to cross. The Turks fired the last round a little a ter 1 o'clock to-day. On the Turkish side the bank presents low cliffs and steep declivi- ties, and behind that more gradual ascents, but always forming perfectly defensive posi- tions, which were in fact but feebly contested. On the right of the Russians, opposite Sistova, a l to-day three battalions of field artillery, firing slowly, have helped to crush the oppo- sition of the Turks. To the left of the land- ing place, concealed among willows, are more batteries, and further to the left s ill, horse artillery. From that posi- tion a whole fleet of Turkish crafts is visible. One of them is a war vessel. Its in- activity is unaccountable. Between 1 and 2 o'clock to day the first Russian gun was fer- ried over on a stage, supported by pontoons, and by that time the column of wounded ceased to pass. The character of the resist- ance may be estimated by the fact that, so far as known at present, there are only a hundred and forty wounded, and giv- ing a fair proportion for killed, it may be said that the Russian loss has been about 200. Gen. Scobeloff's division of Cossacks is on the road to Simnitza from somewhere up the river. Its chief, who is to lead the advance cavalry of the army, has just arrived here. Though the Russians have passed here easily, it has not been so, higher up the river, near Turna Maragelli where their attempt has failed. We must therefore suppose that Simnitza will be- come the chief point of passage for other corps than those originally destined to cross here, but as the matter stands one corps, only the 8th, will have gained a march on the Turkish army. Long before this reaches England, the other corps will be on the southern side in- terposed like a wedge between the Turkish armies at Widdin and Rustchuk. The Rus- sians wisely drew a thick veil around their movements, at the last moment, placing sen- tryson every road and suffering no man to pass. They then passed higher up the river than was expected. The Russian left is in force near Hirsova and is being constantly strengthened. The right has secured the crossing at Simnitza with ease, so that the Danubian passage is secured. The center has the choice of concentrating upon the right or left wing and crossing unopposed. Widdin and Nickopolis are isolated from the Turkish quadrilateral and the present inundations leads to the conclusion that this much vaunted square of fortresses will be itself cut in halves and the Turkish forces separated into three divisions without means of communication and with the whole Russian army occupying the central position between them and free to move with a crushing force upon any one of them.

Crossing at Petrocani.

The Russians crossed at Petroceni yesterday upon rafts, the son of Grand Duke Nicholas going over on the first one. Grand Duke Nicholas crossed at 3 o'clock in the morning at Petroceni and it is officially stated that there were 50,000 Russians on the southern side of the Danube this morning opposite the Simnitza and Petroceni line.

BUCHAREST, June 28.—Losses in the two affairs of Petroceni and Simnitza are estimated by the best authorities at less than a thousand.

The Sistova Landing.

SISTOVA, June 28.—On Wednesday the Turks were driven back from the landing place at the point of the bayonet. Turkish infantry, some 3,000 in number made an attack on the troops which had landed but were repulsed by the musketry of the brigade, which soon afterwards occupied the heights. Sistova will be occupied to-morrow. A Vienna special says the crossing near Turan and Simnitza were made under the eye of the Czar who stood on the mountain of Grayvi.

Other Attempts to Cross.

A Vienna correspondent who hitherto has been well informed, sends the following which, if true, shows that there were other serious attempts made at crossing the Dan- ube at Flamunda, near Turna Maragelli, where a furious battle has been raging for hours. The Russian division succeeded in obtaining a firm footing, and at Turgate, Turna-Maragelli, there were so many wounded from this engagement that the ambulances were full and they had to come back after- wards for more. The Czar was present.

At Kalaarsch nearly 10,000 men had massed on an island in the river. The Roumanians are preparing to cross near Widdin and have established batteries on an island at Sistova The Turks had only three battalions and a few old fortress guns, relying upon water ex- panse of kilometers as a sufficient defense.

No General War.

The *Times'* London special says: Financial authorities consider in conclusion that the Austro-Hungarian debates, Russian utter- ances, and tone of the Mediterranean press, assures for some time non intervention in the Orient and tranquility outside the actual combatants. Prospects that there will be no general war are better than they have been for 30 days.

Austria Threatening.

The attitude of Austria grows more threat- ening, notwithstanding the apparently peace- ful speeches of Count Andrassy. Ad- vices from Vienna to-night inform me that yesterday official dispatches were again trans- mitted to the English cabinet suggesting a closer alliance, and pointing out the necessity of taking immediate steps to insure the pro- tection of the interests of both the powers.

Austro-Hungarian Relations.

VIENNA, June 29.—Minister Tiozas has re- ceived the most flattering telegrams from Emperor Francis Joseph, who says that hav- ing read the minister's speech on eastern af- fairs he could no deny himself the pleasure of expressing his satisfaction at his patriotic and excellent words. This telegram has pro- duced a great sensation.

The debate on Wednesday and Thursday in the Hungarian diet was hardly more than a unanimous expression of approval and of confidence in Count Andrassy's policy.

More Russians for the Danube.

LONDON, June 29.—The army corps stationed at Lubrin, Poland, has been ordered to the Danube and another corps is ordered to be in readiness for an immediate advance. Various correspondents fix two miles below Sistova as the exact point of Russian landing on the Turkish bank of the Danube.

Bombardment of Giurgevo.

At the bombardment of Giurgevo the Turks chiefly aimed at the house of the German consul, believing the Czar was there.

Advancing on Silistria.

LONDON, June 29.—The Russians have occu- pied the island of Barcea near Silistria. It is unknown whether they succeeded in crossing to the Turkish side, but report is that the Turks have abandoned their positions at Tuhernakoma and Medsidge. This is thought to be only explicable as the Russians have crossed near Silistria as stated.

An English Officer among the Turks.

At Pera Count Schouvaloff, on behalf of the Czar, will raise objection to the presence of Sir Arnold Kemble, English military attache, with the Turkish army in Asia.

Commissioner Appointed.

Edward Harding of the Royal Navy, has been appointed commissioner of fisheries, and is about to proceed to Halifax to undertake the duties of that office.

Latest of the Crossing.

From the latest news received here it ap- pears that the crossing of the Danube was only successful from Simnitza and Sistova. All other attempts up to Wednesday failed. The Roumanian telegraph is silent regard- ing yesterday's events.

Turco-Grecian Trouble.

ATHENS, June 29.—It is rumored that Tur- key claims restitution of certain ammunition which the Greek authorities recently seized at Corfu as contraband of war and threatens force if the demand is refused. It is said Greece has decided to resist the demand.

A Claim to Suez.

LONDON, June 29.—A Vienna dispatch says it is reported here that France has asked Ger- many to join her in opposing any endeavor on the part of England to obtain possession of the Suez canal.

Arms Seized.

ATHENS, June 29.—Five or six days ago an Austrian Lloyd steamer landed at Corfu for the Turkish government with 132 cases of arms which it intended to reship for Prevesa in Albania, but the Russian consul protested to the Greek government about the use of neutral territory as a depot for arms of belig- erents. The government thereupon ordered a detention of the arms, and the captain of the Austrian ship in which they had already been embarked, on hearing the protest, un- loaded them into boats where they now re- main. The Turks intimated that they were about to send a man-of-war to fetch the arms. The Greeks replied they would send what force was at their disposal to prevent it. The Turkish government protested, but notwith- standing, the Greeks have ordered the iron clads *George* and *Olga* to leave immediately and they are now ready. The Greek govern- ment has informed the Powers of this, calling upon them for support in preserving neutrali- ty. They will allow the arms to be landed.

Great Losses Reported.

Telegrams to Paris papers assert Russian losses were enormous at crossing the Danube.

The Cretan Troubles.

CONSTANTINOPLE, June 29.—Deputies of the Cretan assembly sent a telegram to the Sul- tan praying him to send a mixed commission to examine the questions at issue between Mussulmans and Christians. The deputies re- fuse the Porte's summons to send delegates to Constantinople to explain their grievances.

General War Notes.

CHICAGO, June 29.—The *Tribune's* special from London says the last detachment of the 14th corps crossed this morning on a bridge to Matchin.

Communicat ons are complete from Galatz. There are 30 600 infantry, and about 5,000 Cossacks in the Dobrudscha.

Hirzova was evacuated on the advance of the Russians.

A severe fight has been reported at Tchernavoda.

Yesterday the Russians were crossing the Danube at Simnitza, and expected to make a crossing at Turna.

At Nikopolis and Silistria Wednesday the losses on both sides were appalling.

Sixteen thousand rifles and two and one- half million cartridges are expected to-day at Constantinople from Egypt.

DARLEGRAD, June 29.—A dispatch says the Turks after the junction of the armies of Suleiman Pasha and Ali Sab occupied Mar- linitza heights. Suleiman Pasha's next move- ment is expected to be by way of Lichunska towards Ricka and Passeby by way of Scu- tari and Teher nuitza.

ST. PETERSBURG, June 29.—A Russian offi- cial dispatch claims slight advantages and capture of some outworks before Sewin on the 25th. The dispatch says nothing about the killed and wounded.

CONSTANTINOPLE, June 29.—Fifteen hundred Russian cavalry who endeavored to relieve Bayazid, have been beaten by the Kurds with a loss of 60 killed and 200 wounded. The Russian garrison still hold the citadel.

The bey of Tunis has requested the Otto- man government to send him a vessel to con- vey a present of mules from Tunis to Con- stantinople. The British and French consuls are stated to have recommended the bey to observe neutrality.

MEXICO.

Mexican Affairs.

NEW ORLEANS, June 29.—The *Times* says two gentlemen representing the dynasty of Mexico, arrived at New Orleans Wednesday by steamer, direct from the City of Mexico, one, Senor Mata, will proceed to Washington as Diaz' minister, with a view of obtaining for his chief recognition from the U. S. govern- ment. The other gentlemen, Bernardo, goes to Rio Grande to visit General Ord, and dis- cuss the situation with him. Gen. Mejia, who has been here for nearly a month past as rep- resentative of President Lerdo, left for New York on Wednesday to join Lerdo there.

A lot of 100,000 shad were shipped to Te- hama during this month. They came over- land by express train from Havre de Grace, at the head of Chesapeake Bay, and will be placed in the waters of the Sacramento. The water at Tehama is clear and cool. The young shad were only a week old when they started over- land.

THE IDAHO INDIAN WAR

[SPECIAL TO THE DAILY OREGONIAN.]

SITUATION OF AFFAIRS AT THE FRONT.

The following dispatch has been received from our special correspondent now at the front, which shows the situation of affairs at the time the telegram was sent:

HEAD QUARTERS DEPT. OF THE COLUMBIA, CAMP PERRY, CAMAS PRAIRIE, I. T., June 27, 1877, 6:30 A. M.

We marched from Mt. Idaho to this place on Monday afternoon, distance ten miles. Yesterday Gen. Howard made a reconnoisance in force leav- ing a strong guard at camp. We proceeded to the scene of Col. Perry's battle with the Indians, found and buried twenty-seven of the dead soldiers, which leaves six bodies yet to be found. Lieut. Theller's body has not as yet been found. Those buried were in such an advanced stage of decom- position as to be unrecognizable; all arms and equipments having been taken by the Indians and most of the bodies having been scalped.

We found and brought into camp one of the settlers reported dead after the massacre on Salmon river. He is wounded in two places, and was almost starved, but has now a fair prospect of recovery. The number of murders thus far ascertained is seventeen people—one woman two children and fourteen men. In addition to the thirty-three sol- diers of Perry's command killed and missing in the late fight.

The details of murders which you will receive as soon as possible to forward a letter are horrible in the extreme. There are several women in Mt. Idaho, wives of settlers who narrowly escaped or were rescued after suffering the most terrible out- rages.

The result of the reconoitre has discovered the Indians encamped across the Salmon river about 12 miles from this camp as nearly as could be as- certained some 200 warriors in number. They have no lodges with them, but a large amount of stock is visible along the river bank. The country is of the most rugged character, tremendous mountains and canyons rendering it difficult in the extreme for troops to travel, added to which the heavy and continuous rains have made the mountain trails or remely slippery.

It is the intention of Gen. Howard to move camp to us, beyond the scene of Col. Perry's fight, about 7 miles distant, and, if possible, to-morrow will get artillery in position on this side of the Salmon and endeavor to reach the enemy. Col. Perry goes back this morning to meet and hasten the advancing column of troops from Lapwai. They should over- take us to-night. The Indians retain their present position an engagement will take place to morrow or Friday at latest.

No further news from Slate creek, where Lieut. Trimble is stationed with his company. No intel- ligence of any outbreak among the other Indians in this vicinity. Officers and men are in excellent spirits and eager for a chance at the Indians.

Dispatch from General Howard.

Gen. H. Clay Wood received a dispatch yes- terday forenoon from Gen. Howard, dated "June 27th, beyond Mount Idaho, at the Front, 5:45 A. M." We have kindly been per- mitted to make the following extracts:

We have overtaken Chief Joseph, who is well posted in the mouth of White Bird creek. White Bird is in charge of the entire united bands. Joseph is fighting chief. The Indians are bold and waiting for us to engage them. Our headquarters to night will be at the mouth of White Bird creek. Most of our dead have been found, "Twenty-seven to be buried." We found citizen Manuel, who was wounded and in a starving condition. The rains are trouble some; roads and trails bad. The troops are in the best of spirits and ready for decisive work.

Resolutions of Thanks.

At a meeting of the common council of Lewiston, Idaho, held June 24, 1877, the fol lowing resolutions were unanimously adopted:

Your committee appointed at a special meeting, held Saturday, 23d June, 1877, to draft appropriate resolutions expressive of the sentiment of grati- tude of the people of Lewiston toward the mayor and citizens of Portland, Oregon, the O. S. N. Co., and to H. D. Sanborn, Esq., for their prompt and generous aid, granted upon our appeal, for arms and ammunition for our defense against Indian attacks, beg leave to submit the following and recommend the adoption:

PREAMBLE.

WHEREAS, By a series of acts and neglect, on the part of those having control of our "Indian affairs," an outbreak of Indian hostilities has been pre- cipitated upon our people from a tribe hitherto never known to be at war with the white race, and numerous murders of our citizens and great destruction of property has taken place, and the probability of a general uprising among many tribes is posing in the balance, and

WHEREAS, Not only our city, but the settlers, of the whole surrounding country, find themselves poorly supplied with arms and ammunition, for either defense or aggression against Indians; and

WHEREAS, Upon notice to the mayor and citi- zens of Portland, of our unprotected situation, they have promptly responded to our appeal for aid, in the most liberal manner; *Therefore be it re- solved*, by the Common Council of the city of Lewiston, in behalf of the citizens,

First—That we heartily thank the good people of Portland for their lively appreciation of our situa- tion, and their promptness and liberality in assist- ing to relieve the same.

Second—That we are under many obligations to H. D. Sanborn, Esq., for his personal and active efforts to procure arms of the the state of Oregon, and to concentrate the humane sympathy of the merchants and business men of Portland, in such tangible form that money and means have been provided for our immediate aid, as made known.

Third—That our thanks are due to the officers of the O. S. N. Co., for their co-operation with the au- thorities and citizens of Portland in furnishing us their early assistance.

Fourth—And your committee would earnestly suggest, and recommend that the Board of Common Council order that the names of corps be spread upon the records of the city of Lewiston; that our successors may long remember in gratitude those worthy, liberal persons and corporations who as- sisted our embryo city in time of need.

Fifth—That we look upon these demonstrations of promptness, manifested by the people of Port- land, as sure evidence of their faith in the people of this upper country, the value of the country itself, and their determination to preserve it intact from invasion of Indian hostilities and to protect its inhabitants in their efforts to develop it, and make it the prosperous home of thousands of Amer- ican citizens.

Sixth—That a copy of these resolutions be fur- nished to the *Teller* of this city, and to the OREGO- NIAN and *Standard* of Portland, with the request that they be published.

The Nez Perces in Montana.

DEER LODGE, June 29, 1877.

Gov. Potts, Helena—I am in receipt of the follow- ing from Postmaster Dickenson of Missoula, Mon- tana, dated Monday, 12 M:

John Summers and Mr. Wilkinson have just ar- rived from Corvallis and report that a Nez Perce who talks good English came from Lewiston and says the Indians are coming into Bitter Root valley and will come into the head of the valley and clean it out, and if the Flatheads don't join them they will clean them out too. SATURDAY MORNING, JUNE 30, 1877.

SANITARY SCIENCE.

Before the American Health Association of Boston at a recent meeting of that body, several papers were read, giving a scientific view of the influence of civilization on the duration of human life. Some of the evidences are massed in Buckle's *History of Civilization;* in the papers before us they are reduced by generalization to useful shape. Civilized man, it is beyond question, lives longer than the savage. But the rule has its limitations. While some degree of civilization is favorable to longevity, yet as the influences of artificial society come into play, the conditions become complicated, and luxury, ease, vices and accumulation of hereditary ills from these causes, are certainly shortening to some extent the tenure of life. Again, it is undoubted that the rapid growth of cities for the last 50 years is a check upon longevity. No great city, as statistics abundantly prove, could maintain its numbers without continual accessions from the country districts; and by those who have attentively considered the subject it is asserted that if all the inhabitants of the globe were living in cities of the magnitude of London and New York, and subjected to the same influences connected with the movements of population, "the whole human race would die out in a century or two." So greatly does excessive competition multiply the difficulties of existence; to such an extent are the chances of vice and disease increased among people congregated in great masses. But in spite of the opposite effect produced by the recent remarkable growth of cities the tendency of civilization is toward a decided extension of the duration of life; and this result is brought about in ways which may be briefly generalized.

Infancy is protected. In the care of the sick, infirm and aged, society is steadily making substantial improvement. Every asylum for the orphan, every hospital for the afflicted, is an agency in the work. Cultivation of the moral nature of mankind increases the sensibility to pity, and leads to the protection by society of the classes who are unable to protect themselves. Advance of scientific knowledge greatly checks the progress of epidemics. It is now known that every visitation of this description is subject to certain laws. The plagues of history are deprived of half their terror when it is known that they are not the scourge of God, but the result of conditions which man may ascertain and against which he may protect himself. Since the advance of science became so marked, cholera touches the enlightened nations with far less severity. Smallpox was once the scourge of the human race. It is now everywhere kept under control; and leprosy once so common, is now almost unknown. Typhus, diphtheria and other diseases are becoming well understood. Their causes are known and prevention is common. With the progress of knowledge there is reason to hope and strive for their extermination. By its arrangements for storing and distributing food civilization prevents general famines. Police regulations, quarantine laws, improvements in the construction, heating and ventilation of buildings and in the management of sewage, all tend in the same direction toward a diminution of the chances of mortality. The subject is an immense one, and possesses the highest possible interest. Even the barest statement, like the present, though not of much value in itself, is suggestive of the extent and importance of a study which so greatly concerns human life.

A LEADING ISSUE.

Something like a readjustment of political parties seems likely to grow out of the present general discussion of the silver question. A dozen states, including some whose influence in politics is very great, will follow the example of the dominant party in Iowa, resolve that ninety cents worth of silver is a dollar, and demand that it be so declared by an act of congress. It is an infatuation that possesses great numbers of both parties; but there must be ere long a reaction against it in the direction of common sense. In Ohio the fallacy for the present possesses nearly all minds. The Cincinnati *Gazette* is about the only important newspaper of either party in that State which shows by its course that it has a real comprehension of the subject. Both parties in their conventions will go all lengths in demanding the issue of silver coin to be an unlimited legal tender.

We have the gold dollar, the silver dollar and the greenback dollar. The first is a dollar in fact, and has an undoubted value in any country in the world. The last is worth about 95 cents, and owes its value to the promise of its redemption in gold; while the silver dollar is worth about 92 cents, that being the present market value of the amount of the metal it contains. If the greenback were to be redeemed in silver only it would fall to about the same relation to silver that it now bears to gold. If silver be made a general legal tender it will demonetize gold, make it merchandise, and drive it abroad. Gold and silver cannot circulate together except by keeping the latter in a subordinate relation for payments in small sums. These facts ought to be very easy lessons. To us on the Pacific coast, who have knowledge from actual observation of the relations of silver and gold, the facts are elementary. But the Iowa platform and the utterances of the press of Ohio, Illinois and Indiana, prove that instruction in the simplest principles of the subject is greatly needed there. If the discussion goes on and is made a permanent feature of politics, a partial readjustment of party lines in consequence of it will be inevitable.

THE EASTERN WAR.

Russians are now pressing at all points with greatest vigor. Army corps continue to cross the Danube at different places as rapidly as possible. These crossings are made at various intervals for more than two hundred miles along the stream. The masses of Russian soldiery are so vast as to inundate the invaded territory. So extended is the line of movement that incessant fighting is reported, with losses which are spoken of as appalling. On one side is pressure of numbers and resolute purpose to make a successful aggressive campaign; on the other is the advantage of defensive positions, rendered still more formidable by recent improvements of fire arms. Vast as are the Russian forces along the line of the Danube, other corps from the interior of the empire are to be hurried forward to support the pressure on the Turkish line of defense. Armies so numerous will be constantly engaged at one point or another. Russia evidently is determined to urge the onset now at whatever sacrifice of life it may require. She has the men and the resolution to use them. Meantime the general attack along the line of the Danube produces no relaxation of Russian effort in the eastern division of Turkey, about Kars and Erzeroum. The present struggle promises to be one of the most bloody since the times of Napoleon.

OREGON BUTTER.

CORNELIUS, June 27, 1877.

TO THE EDITOR OF THE OREGONIAN:

Dear Sir: During the last four or five years I have been engaged in the real estate business, and during that time have received a great many letters from different parts of the United States and from Canada, asking for information concerning Oregon, and among other questions, the enquiry has frequently been, "Why do not Oregon farmers produce good butter?" On account of the frequency of such questions I am persuaded to believe that many dairymen in the Atlantic states and elsewhere, have been much deceived and misinformed, in regard to that particular branch of industry in Oregon. For I am sure that experienced butter makers can manufacture as good a quality of butter in Oregon as can be made in the world. Believing this, I send you to-day a sample of butter made by Mrs. Bruce, on the farm of Major James Bruce, near Cornelius, Washington county, Oregon. This sample was made from the major's little Jersey cows, and I am assured by competent judges, that this butter will compare favorably with the butter made on Jersey island, which sells in the New York market for 50 and 60 cents per pound. Yours respectfully, T. R. CORNELIUS.

[The butter sent is certainly of remarkable excellence. It will not be surpassed anywhere. It is absurd to say that Oregon is not a good country for butter making. Care and skill will produce as good butter here as in any part of the world. If Oregon has had a bad reputation for this product, it is the result of slovenliness and ignorance. Slovenly butter making is the most detestable thing in the world. We are glad to be able to say that there is steady improvement in the quality of much of the butter put on our market; but the reform is not yet general and thorough enough. A good article should be the invariable rule. Bad butter doesn't pay at all, and no one can make it and offer it in the market without loss of decent reputation, and of self-respect too—if indeed the sensibilities be not altogether gone before one can offer such stuff.—ED.]

A letter to the New York *Herald* gives a descriptive account of the great valley of the Yellowstone as an agricultural and grazing country. According to this correspondent a very large and fertile region there awaits settlement. The Yellowstone proper is about 560 miles long, and of this distance the valley for 300 miles is said to be susceptible of cultivation. For the first 200 miles it has an average width of five miles, and below that a width of ten miles or more. Many tributaries of the Yellowstone river have rich and extensive valleys. Among these are the Stillwater, Clark's Fork, Big Horn, Tongue and Powder rivers. On the Big Horn alone it is stated there is room for 20,000 farmers and stock men to settle. Into several of these valleys settlers are already pouring rapidly, and great bands of cattle are ranched there. The settlement with the Indians will remove the fear that kept back large numbers of people. Many are coming in from the direction of the Black Hills. The construction of the Northern Pacific railroad will make Montana a rich and desirable country. The climate is favorable for all the cereals, for vegetables, fruits and wool.

Next year Nevada will elect a senator to succeed John P. Jones. The Reno *Gazette* says there is a disposition among certain classes to elect a resident of the state; but this unreasonable idea, it says, will surely be rejected and its authors punished by the men who own the state, and the reign of the bullion dynasty, which has its headquarters in San Francisco, will be continued.

The organ of the resolutions of '98 wriggles a good deal in consequence of getting its hair lifted for pirating news matter from the OREGONIAN and trying to pass it as its own, but recovers itself sufficiently to go on with its purloining as usual.

RELIGIOUS INTELLIGENCE.

BAPTIST STATE S. S. CONVENTION.

Third Day.

Devotional—led by Elder S. Hill, reading lesson from John 15. Report of S. S. board read and received.

Essay—"Collections, how often should they be taken up and for what purpose?" prepared by Mrs. Briggs, of Portland, read by Addie Mansfield of Albany. The essay was thoroughly discussed and it was decided proper to take collections weekly for home schools and foreign missions.

"Work of missions in S. S." Introduced by Mrs. J. C. Baker, followed by Huff, Price, Rees and J. C. Baker. The subject was taken up and considered.

Afternoon Session.

Sermon by Elder S. Price, text—"So I am with you even unto the end of the world," Matthew 28, 20.

"Woman's Missionary Society," presented by Mrs. J. C. Baker, who is working for that society, and whose heart is indeed in the cause. Her remarks were well timed and brought tears into the eyes of many. Every one seemed anxious to speak on that subject, having their sympathies so aroused for those heathen women.

After the session closed Mrs. Baker formed a ladies' missionary circle with Mrs. Ezra Fisher as president.

Evening Session.

Devotional—led by Rev. Huff of Oregon City.

Sermon by J. C. Baker, from Isaiah 8, 20. This sermon was a missionary one. After the sermon a collection was taken up for mission purposes.

The convention was harmonious and all seemed to feel it was good to be here.

Adjourned to meet at McMinnville in October.

New York *Herald:* Considering how important a man Mr. Conkling is in the politics of his own party, his willingness to be away during the interval before Congress meets is noteworthy. It proves that the able New York Senator takes no part and feels no interest in the intrigues said to be on foot for organizing a Republican opposition to the policy of President Hayes.

CITY.

THE GROVER INVESTIGATION.—So far as can be ascertained, the congressional committee, composed of Senator Morton, of Indiana Senator McMillan, of Minnesota, and Senator Saulsbury, of Delaware, has not yet definitely determined where the committee will hold its session—whether at Salem or in this city. Understand that Senator Grover and his friends are extremely anxious to have the committee meet at the capital and strenuous efforts are being made to accomplish that object. The committee is favorably inclined to it, but will be governed by circumstances. They have no idea as to how long the investigation of the charges preferred will require. Senator Morton, when interrogated upon that point, stated that he could form no opinion as to how long it would take; that would depend entirely upon the number of witnesses to be examined and the difficulty encountered in procuring their attendance. From present reflections it seems more than probable that the committee will hold its sessions in this city. Last evening we learned that efforts are being made to procure a suitable room in which the committee are to meet. There is talk that the vacant room opposite the Masonic Temple, corner of Alder and Third streets, will be secured for that purpose and fitted up. However, the matter will be definitely settled in a few days.

A DRUNKEN FOOL.—At an early hour yesterday morning Officer Howard observed a man running down Salmon street toward the river. He was very meagerly clad, having on nothing but his drawers and undershirt. Howard pursued him and soon succeeded in overhauling him. After taking charge of the person, he ascertained that his name was Henry A. Myers; that he was formerly a bartender at the St. Louis hotel. Myers seemed to be in a demented condition and acted very strangely. Officer Howard conducted him to the city jail, when a letter was found in his pocket addressed to his sister, who resides in Seattle, W. T. The letter was written by Myers, and stated that he had taken a quantity of laudanum with suicidal intent. He gave as a reason that he was involved in debt and could not find employment. An emetic was administered, which soon cleaned his stomach and placed him beyond danger. As Myers appeared to be in an unsound condition of mind, he was examined before Judge Woodward yesterday afternoon, adjudged insane and committed to the asylum.

THIRTY-SIXTH ANNIVERSARY.—The *Churchman* says:—"The 22d of June was the 25th anniversary of our bishop's marriage. It was remembered in a quiet way by many of his friends, whose love was shown to him and his wife on the occasion. It is seldom indeed that a silver wedding can come to any family without bringing also sad remembrances. Seldom can all the family be there. The circle has been narrower, and some have gone to wear the golden crown. Nevertheless, a quiet day for us can come to the Christian father and mother, for though they are not all here, they are all still one in that union of hearts and love which eternity cannot change."

A SPLENDID AFFAIR.—On to-morrow evening at 5.30 o'clock a concert will be given by the Sunday school at Lee chapel in East Portland. Great preparations have been made and this will be the best concert of the kind that has ever taken place in the church. The first class will, build a gold-lettered cross, two little girls, aged 7 and 8, respectively, will sing as a duet "Grandma's Spectacles," and other exercises equally interesting will be on the programme. Hon. J. F. Caples will deliver the address. Friends from the city will be well repaid for the walk of a mile on the railroad track. Remember the hour.

WHERE IS JAMES?—Mrs. James E. Chapman, of Medina, Medina county, Ohio, writes as follows concerning her husband, under date of June 18, 1877: "Can you give any information concerning James E. Chapman. He is a family, consisting of a wife and four little children, of which one is nearly blind and one a cripple. I have written to him, but have received no reply, and have received nothing from him since the 1st of March. We are in a very destitute condition. If you can give any information it will be thankfully received, as we are absolutely starving for the necessaries of life."

PROPAGATING FISH.—In conversation with Mr. E. W. Conyers, Mr. Livingstone Stone, U. S. fish commissioner, told him he had failed to catch any salmon for spawn on the upper Columbia, and moved his camp to the mouth of the Cathlamet bay, where he was taking some. The spawn he intends to hatch in the mill ponds at Westport, and the young will be carried up the Columbia to the point where it is thought best to stock the river. He expects to plant several millions in this way.

CHANGE ON ASTORIA ROUTE.—The traveling and shipping public will notice advertisement of O. S. N. Co., withdrawing the special boats to the fisheries. Points between Waterford and Astoria will only be visited tri-weekly. Freight or landings below Waterford, on Washington territory side, will only be received at Portland warehouse on Tuesdays, Thursdays and Saturdays. Freight for points below Waterford on the Oregon side will only be received on Mondays, Wednesdays and Fridays.

PRIVATE RECEPTION TO SENATOR MORTON.

TO THE EDITOR OF THE OREGONIAN

Senators Morton, Saulsbury and McMillan are in the city and as we see by all the papers of the city are to be the recipients of a reception at Turn Halle on Monday evening. Almost every person in Oregon has been looking forward to the arrival of these distinguished visitors with a great degree of interest. There are several reasons for this unusual interest on the part of the people, the most important of which is The position these men occupy in the United States senate will enable them to do more for the interests of Oregon—and if for the interests of Oregon for the interest of every person having interests, here—than any person traveling in a private capacity. These gentlemen have come here upon United States business, and their interests are with all classes of the people. Without doubt every citizen of Oregon gladly welcomes them, and many feel aggrieved that the board of trade of this city has tendered them a private reception—a reception at which none can be present unless holding an invitation sent out by the secretary of this board—a worthy gentleman whose presence among us has been of comparatively short duration. This reception will, without doubt, be a *recherche* affair, at which the *elite* and public talent of the city will have an opportunity of welcoming these gentlemen while the poorer, yet as worthy a class of the population, a class more desirous of doing so, perhaps, are quietly, in the face of the republican institutions of our land to be set aside and leave this honor to our merchant princes and their friends.

Mr. Editor, I do not question the right of the Board of Trade to make this reception a private one, but as this is probably the only opportunity the residents of Portland will have to welcome these gentlemen, and as Gov. Morton and his colleagues have been elevated to the honorable positions they occupy by the votes of the people, and not by the coin of the rich, it seems to your humble correspondent at least in bad taste that the length of the purse should be the measure by which the welcomers at the *first* reception in Oregon are made.

We confess to being surprised that Senator Morton, a gentleman so popular with the masses, should allow *caste* to enter into his first reception in Oregon. Who is responsible for this mistake? I cannot regard it other than a mistake, and the undercurrent of popular feeling that I as already set in naturally inquires for the party.

ONE NOT INVITED.

PICNICS.

The excursion to the Cascades on Wednesday last, by steamer *Gazelle*, under the auspices of the Columbia Chapel Sunday School, was quite successful in all respects. The Sunday School went on board at Holigrieve's Landing, while others at Portland, Vancouver, Fisher's and Parker's Landing, helped to swell the number to the noble little steamer's utmost capacity. Under management of Captain Armstrong, aided by Rev Mr Exon the steamer was gaily decorated with evergreens, flowers and flags, presenting a beautiful appearance. One of Estey's splendid organs, C F Shepherd & Co., agents, was in constant use, presided over by the accomplished organist, Miss M Jaggy of Vancouver. The accommodating officers of the boat, the mildness of the day, the splendors of the natural scenery, and the geniality of the company, all combined to make the excursion one of unusual interest and satisfaction. The receipts were far in excess of expenditures, leaving a handsome margin for the benefit of the Sabbath School at Columbia Chapel.

MILITARY NOTES.

First Lieut Robert H. Fletcher, 21st infantry, is hereby relieved from duty with Company D, 21st infantry, and will take command of a detachment of cavalry and report without delay to Capt. Robert Pollock, 21st infantry, for duty.

Second Lieut. Joseph W. Duncan, 21st infantry, temporarily assigned to duty with Company G, 21st infantry, at Fort Lapwai, I. T., is hereby relieved from duty with that company and ordered to report for temporary duty with Company D, same regiment, and will report without delay to Capt. Robert Pollock.

Capt. Robert Pollock, 21st infantry, will, with his command, consisting of Companies D (h sown) and I, (Spurgin's) 21st infantry, and detachment of cavalry under command of Lieut. Robert H. Fletcher 21st infantry, report at the earliest possible moment to Capt. David Perry, 1st cavalry, at or near Mt. Idaho, Idaho territory, for service against hostile Indians. He will take charge of and escort pack trains and supplies for Capt. Perry's command,

AMUSEMENTS.

LAST EVENING'S PERFORMANCE.—That very attractive American comedy, Our Boarding House drew a good audience last evening at New Market Theater. The play was well mounted and rendered in a very unexceptionable manner in all its details. It was enjoyed immensely, as the array of laughing faces and the hearty and prolonged demonstrations of approval most abundantly test ed. Mr Brown as "Gregarious Gillypod," a gentleman of extreme inventive faculties and proprietor of the Biting parachute, was excessively funny and succeeded admirably in making the people laugh. He is one of the established favorites with the public. As Mrs Beatrice Manheim, a fascinating young widow and a victim of the base scoundrel Fioretti, Mrs Norton Bush acquitted herself very creditably. Mr Herne as Col M J Elevator, a professor of slang and boss of the grain market, was capital both in acting and make up. Dick White's Fioretti, the wealthy but unscrupulous Italian, was all that could be desired. "Dexter," the impressive young swell with more money than brains and by the way a regular feminine heart smasher, was personated by Mr Edwin Bern. In that gentleman's usual smooth and polished manner. Mrs Ingalls, the hostess, was personated by Miss Julia Abbott quite to the satisfaction of all, while Miss Rillie Deanes as Ruth, the maid of all work, was irresistible in her comicalities. The remainder of the cast, Walter Dalrymple by J C Herbert, Mr Dalrymple by J Deaves and "Mr. Pligible" by J H Walters were quite acceptable. This play abounds in charming dialogue and is replete with ludicrous situations, with just a sufficiency of the sentimental and pathetic element to add pleasure and interest to the whole. The evening's entertainment concluded with the roaring farce of the "Big Bonanza," which sent every person home with an audible smile. This same bill will be repeated this afternoon at the matinee. An immense jam of ladies and little folks may be anticipated.

This evening a dramatized version of Dickens story of Oliver Twist will be presented in which Mr Herne will appear in his great impersonation of "Bill Sykes."

RELIGIOUS NOTES.

[From the Advocate and Sentinel.]

Rev Stanley O Royal, who has just graduated at Drew Seminary, has been appointed to a good charge at Piqua, Ohio

His Grace Archbishop Blanchet has been absent during the week giving confirmation and blessing the new cemetery at St Paul.

SANFORD'S RADICAL CURE For CATARRH

INSTANTLY relieves and permanently cures this loathsome disease in all its varying stages. It possesses the soothing and healing properties of plants, herbs and barks in their essential form, free from every fibrous contamination and in this respect differs from every other known remedy. In one short year it has found its way from the Atlantic to the Pacific coast, and wherever known has become the standard remedy for the treatment of Catarrh. The proprietors have been waited upon by gentlemen of national reputation who have been cured by this remedy, and who have at considerable expense and personal trouble, spread the good news throughout the circles in which they move. When you hear a wealthy gentleman of intelligence and refinement say "I owe my life to Sanford's Radical Cure," you may feel assured that it is an article of great value and worthy to be classed among the standard medical specifics of the day.

HEALTH AND BEAUTY

From a Distinguished Physician.

NO single disease has ever caused more suffering or hastened the breaking up of the constitution than Catarrh. The name of disease itself is loathsome, for in hearing the human voice, the mind over more and sometimes all right to its destructive influence. The poison it distributes throughout the system attacks every vital function and breaks up the most robust of constitutions. Ignored because but little understood by physicians, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved of it this side of the grave. It is time then that the popular treatment of this terrible disease by remedies within the reach of all, passed into hands at once competent and trustworthy. The new and hitherto untried method adopted by Dr Sanford in the preparation of his RADICAL CURE has won my hearty approval. I believe it likely to succeed when all the usual remedies fail because it strikes at the root of the disease, viz. the *vitalized blood* while it heals the ulcerated membrane by direct application to the nasal passages. Its action is based on certain fixed rules, and unless the vital forces are too far exhausted must, in the great majority of cases effect a cure. GEO BEARD, M. D.

Nolscott Block, So Framingham, Oct 1, 1874

CATARRH.

And Deafness Cured.

Gentlemen—My wife has been troubled with Catarrh for years, and has tried three other remedies without any benefit. She has also been partially deaf in one ear over twelve years. Since she has been using SANFORD'S RADICAL CURE her troubles have been growing rapidly better. At times she can hear as well as ever, and I am confident that a persistent use of the remedy will result in a permanent restoration of her hearing. There are several others here who are using the RADICAL CURE successfully, and I anticipate for it a large sale as a conscientious of the never failing relief and cure affords by its use. Respectfully yours

A. W. DAVIDSON

SATURDAY MORNING, JUNE 30, 1877.

OREGON.

Hon. L. F. Lane will deliver the oration at Corvallis on the Fourth.

The name of Villard House at the depot at Albany has been changed to Comstock House.

The *Independent* says the population of Hillsboro has grown in three years from 260 to over 500.

The Coos bay *News* claims that there is yet a prospect of getting pay out of the Henryville coal mine, on which $200,000 has been sunk

The *Reporter* says diphtheria is prevailing on the south Yamhill to an alarming extent. Adults are as sorely afflicted as the little ones.

The citizens of Nehalem have completed the state road leading from Cornelius by Quick's through to the Nehalem river. Good place to go a fishing.

In Coos county, at a logging camp, a limb fell from the top of a fir tree 200 feet high, striking Joel Delaine on the head. He was knocked senseless, and died in a short time.

Last Friday Commissioner T. H. Cann, according to previous notice, was at Hillsboro and put up 1,776 acres of school lands for sale. Isaac Meyer was the only bidder, and he bought 350 acres.

The *Mercury* says a storm of wind and rain on Thursday prostrated early sown grain in Marion and Polk counties. It fears that much that has been thrown down will not straighten up again.

The *Reporter* hears that Henry Black and family, who went from Polk county to the upper country four or five years ago, were murdered in the recent Indian outbreak. The rumor is probably unfounded.

At Beaverton, Washington county, a paper is being circulated soliciting subscriptions to build a Catholic church near where the Butte Grange hall is located, and is being liberally responded to by the citizens.

The distance from Corvallis to Lebanon on an air line is 17 miles. The right of way will soon be secured, and it is said work will then begin on the extension of the Yaquina railroad. The people of Lebanon are very earnest in the matter.

The annual catalogue of Corvallis college shows a list of 49 students enrolled in the agricultural department, and 33 in the collegiate department. This institution has passed through the last collegiate year with a marked degree of success.

B. F. Curtis has received the machinery for his small boat to run between Corvallis and Albany. The wheel will be only five feet in diameter; engine of eight horse power. The croakers say it can't run against current, but the proprietor has confidence.

Hillsboro *Independent*: Dr. F. A. Bailey, W. Simmons and M. G. Wills have bought a lot of W. Simmons near the station at this place on which they propose to erect a large two-story ware house that will have a storage capacity of from 60,000 to 75,000 bushels of wheat.

Corvallis *Gazette*: Work on the Yaquina railroad is progressing very handsomely, and now friends of the road are continually coming to the front. The importance of this enterprise demands, and it is receiving the earnest attention of all true friends of public improvement.

Albany *Register*: Most all our people stand ready to enlist to fight Indians—provided we can enlist as Brigadier Generals. We don't care for expenses and danger of wah, provided there's some style about it. Then a regiment of B. G.'s with red sashes sinched to them, would look about the thing, and it might act as the "rear guard" to the soldiers.

The State Dental Association has been in session at Salem this week. Dr. L. S. Skiff was elected President; G. W. Gray of Albany, Vice President; S. J. Barber Portland, Corresponding Secretary; E. O. Smith of Albany, Treasurer. After an animated discussion it was resolved that, "owing to the risk attending the use of all anæsthetics in surgical operations, and the very great danger in the administration of chloroform in such cases, that the Association disapprove of the use of chloroforms as an anæsthetic in dental operations, therefore do recommend and respectfully request all persons engaged in the practice of dentistry in the state of Oregon to discontinue its use as an anæsthetic, believing that by adopting such a course we shall do honor to our profession as well as justice to our patients."

THE TERRITORIES.

Municipal election at Seattle in about two weeks. L. B. Andrews is spoken of for mayor.

The construction of a very large coal wharf at Tacoma is about to commence. It will be 1,500 feet long.

It is estimated that there are 736 acres of hops growing in Washington territory, 500 of which are in Pierce county.

A Seattle paper quotes from Gen. McClellan's report to show that there is only one pass practicable for a railway from the Columbia river to the northern boundary, and that is Yakima and Snoqualmie.

Two hundred men will be put at work on the Newcastle branch of the Seattle and Walla Walla railroad, and six and a half miles of road will be completed within three months. It will reach a valuable coal mine.

The election for joint representative for Clallam and San Juan counties last fall was a tie between Abernethy and Warbass—147 votes for each. So the election was called to be held over again the 12th inst. According to the *Mail* it resulted in the choice of E. D. Warbass, of San Juan, a Democrat. This, however, will not materially affect the Republican majority in the next legislature.

BRITISH COLUMBIA.

One hundred and fifty men wintered on Dease creek. The number now in the Cassiar district is computed at 807 white men and 357 Chinamen.

Robert Williams, chief trader of the H. B. Co., and four Indians were drowned on the 8th June, by the upsetting of a canoe near Queen Charlotte's island.

The *Colonist* reports that Victoria harbor is slowly but surely spoiling. Where ten years ago ten feet of water stood, soundings on Monday showed only three feet. It grimly anticipates the day when St. James bay will become a bed of ooze and street mud.

A good deal of building is in progress at Victoria, and the most noteworthy circumstance connected with the fact is that the structures in progress are of a superior class to those that a few years ago it was thought would meet all requirements. This fact indicates that the population is of a more settled and permanent character than of old, and that the men and families now here intend to remain and grow up with the country.

WONDERFUL SUCCESS

OF

DR. PAUL M. BRENAN

In the Treatment of Chronic Disease.

Positive Proof of his Wonderful Skill.

Testimony that Cannot be Contradicted.

Reliable Witnesses Testifying What he has Done for Them.

Perfect Cures where all other Treatment had Failed.

Crowds Coming from all Parts of the Country to Visit Him.

The Following Certificates Speak for Themselves:

TO DR. PAUL M. BRENAN—

For the past year and a half I have been suffering from Nervous and General Debility, Kidney Disease, Loss of Flesh and Strength, dizziness in the head and a constant pain through the back and loins. I became so debilitated and broken down that I was unfitted for business. I have been to Victoria and all over the coast under medical treatment for the past nine months, without receiving any benefit whatever, and had almost given up hopes of ever recovering, until I came under your treatment, about seven weeks ago. From the very first your treatment seemed to work like a charm, and I constantly improved from the beginning. I have gained 14 pounds of flesh, and I am now, thanks to your skillful treatment, perfectly well, and am able to return to my business on the Snohomish. JAMES KING.

Seattle, March 31, 1877.

To the People: I have been troubled with chronic Nasal Catarrh for years, the disease being so aggravated that there was constantly an effusion of matter passing down into my throat behind the palate and down through my nostrils.

My nose became depressed between the eyes and swollen on each side. I was told by physicians that it was a polypus; that some of the blood vessels were involved and that the removal would endanger my life by hemorrhage. I became so bad that I made up my mind that I must have immediate relief or die.

As a last resort I applied to Dr. Paul M. Brenan, who, after a moment's examination, determined what to do. He said the nasal bone was involved and diseased, and that there would have to be a portion of it removed. He at once removed the bone tumor containing the nicer, also the diseased portion of bone and paucatory gland and cured the catarrh. I am now perfectly well and as free from disease as ever I was in my life.

THOMAS D. MURPHY.

Seattle, April 5th, 1877.

DR. PAUL M. BRENAN—*Dear Sir*: I take great pleasure in stating for the benefit of those who are afflicted with any chronic disease, that *I am now a well man*. For the past two years I have been under the medical treatment of different physicians, from which I have received no benefit. I have been suffering with general and nervous debility, a difficulty in my stomach, and at times dizziness and severe headache, almost incapacitating me for work. About three weeks ago I put myself under your care, and I can say with delight that I am cured and feel like myself again, after having partaken of your skillful treatment. To me *now*, labor seems a pleasure. I say this much, hoping it will be the means of attracting the suffering to you who can relieve and cure them.

Your's Truly, JOHN BALLARD,
Employed at Colman's Saw Mill, Seattle.

[I will not publish any cures performed by me unless by the full consent of the parties.]

PAUL M. BRENAN.

Dr. Brenan can be consulted, free of charge, at his office at the Clarenden Hotel, from 10 to 12 A. M., and at rooms 6 and 7 in Corbett's Block, corner of Front and Washington streets, Portland, Oregon, from 1 to 5, and 7 to 8 P. M.

NOTICE TO PERSONS INTENDING TO EMIGRATE TO OREGON.

Direct Passage from New York to Portland, Oregon.

LAND DEPARTMENT, O. & C. R. R.,
PORTLAND, June 25, 1877.

THE OREGON STEAMSHIP COMPANY HAS agreed to carry on its iron steamship, now being built at Chester, Pa., by John Roach & Son, upon her completion, on or about the 15th day of January, 1878 steerage passengers from New York to Portland, direct, via the Straits of Magellan, at the extremely low rate of $75.00 currency, board included.

This steamer will be the best, strongest and most comfortably arranged ship ever built in the United States. Speed, 13½ knots. Dimensions: 290 feet in length; 38 feet beam; 23½ depth of hold; capacity, 2 500 tons; 200 cabin and 600 steerage passengers. The fitting up of the steerage will receive special attention; it will be provided with all modern improvements and its ventilation will be perfect. Every attention will be paid to the comfort of passengers, and the fare will be of the best quality. Part of the deck room will be fitted up for refrigerating purposes, with a view to furnish passengers fresh meat during the whole voyage.

The voyage will be made in about sixty days.

To assist persons who desire to emigrate to Oregon, agricultural and other implements will be taken at very low rates.

For persons here who have friends in the Atlantic States wishing to come to Oregon this offers a rare opportunity, as the annoyances and fatigue of the overland route by rail are avoided, and the passage is considerably less.

For particular information address F. C. Schmidt, 1 South William street, New York, or
